

What: A hands on **BYOD Geogebra Workshop**

When: **First Tuesday of the July School Holidays**

3rd July 2012: 10am to midday and 1pm to 3pm

10 to midday - focus on the basic skills and uses of Geogebra 1pm to 3pm - focus on more advanced features, and senior school teaching Come to one or both sessions, your choice.

Where: **Tamaki College**

Cnr Elstree Avenue & Taniwha Street, Glen Innes, Auckland, 6, New Zealand

Who: **Priscilla Allan**

with New Zealand Secondary School Mathematics Teachers

Why: To share how we use Geogebra and upskill for the classroom

Cost: \$5 Koha for Tamaki College for providing the venue

Bring: **Lunch and Laptop**

<http://2011geogebralessons.wikispaces.com/Geogebra+Workshop+July+2012> will store the links and files that are used, or discussed on the day. Please load Geogebra onto your laptop from <http://www.geogebra.org/cms/>, do not panic if you cannot, I will bring a USB. One potential issue is the rights you have on your laptop, if we cannot get Geogebra running you will have to share. Do you have an idea - an applet you would like to use - that I can help you with?

Registrations: (limited to 40) to priscillaallan@gmail.com
By 1st June 2012

Other information: I use wikispaces to support my classroom teaching. I am experimenting with "flipping the classroom". If interested take a look at this year's space: <https://2012maths.wikispaces.com/home> Geogebra applets are easily placed into a wiki, as are videos etc.

Note: The long lunch break will give us a chance to share our learning stories in a casual and relaxed environment.
